Medical Library DEC 8 1942

CURRENT LIST of MEDICAL LITERATURE

VOL. 3 December 3, 1942 No. 23

SUBJECT GROUPS ACCORDING TO JOURNALS

1. Anatomy; Histology
2. Anthropology; Ethnology
3. Archeology; Paleontology
4. Aviation Medicine
5. Bacteriology; Parasitology
6. Biology; Embryology
7. Bone; Joint; Extremities; Muscle
8. Cancerology
9. Cardiovascular System
10. Chemistry; Physics
11. Dentistry; Stomatology
12. Dermatology
13. Diagnosis; Clinical Methods
14. Dietetics; Foods; Nutrition
15. Digestive System
16. Endocrinology
17. Forensic Medicine; Toxicology
18. Genetics; Eugenics
19. Gynecology; Obstetrics
20. Hematology
21. History; Biography; Bibliography
22. Homeopathy; Osteopathy, etc.
23. Hospitals
24. Immunology; Serology
25. Industrial Hygiene; Sociology
26. Infectious Diseases; Epidemiology
27. Medicine
28. Metabolism
29. Military and Naval Medicine
30. Miscellaneous
31. Neurology; Psychiatry
32. Nursing
33. Ophthalmology
34. Otorhinolaryngology; Phoniatry
35. Pathology
36. Pediatrics; Child Welfare
37. Pharmacology; Pharmacy
38. Physiology
39. Psychology; Mental Hygiene
40. Public Health; Sanitation
41. Radiology; Phototherapy
42. Respiratory System
43. Surgery; Traumatology
44. Therapeutics
45. Tropical Medicine
46. Tuberculosis
47. Urology
48. Venereal Diseases; Sexology
49. Veterinary Medicine
50. Zoology

Privately published under the auspices of the

1. Anatomy; Histology

J. Morph., 1942, 71: (Nov.)

MULLIGAN, R.M. Histological studies on the canine female genital tract. 431-48.
CARLSON, J.G. Immediate effects of 31 r of x-rays on the different stages of mitosis in neuroblasts of Chortophaga. 449-62.
NELSON, O.E., & MAXWELL, N. The structure and function of the urogenital region in the female opossum compared with the same region in other marsupials. 463-91.
AREY, L.B., & BARRICK, L.E. The structure of the repognatorial glands of Onchidium floridanum. 493-521.
POWERS, P.B.A. Metrical studies on spermatogonial chromosomes of Acrididae, Orthoptera. 523-76.
BENT, J.N. The embryonic development of Plethodon cinereus as correlated with the differentiation and functioning of the thyroid gland. 577-601.

2. Anthropology; Ethnology

Am. Anthrop., 1942, 44: (Dec.)

GILLIN, J. Acquired drives in culture contact. 545-54.
SPECK, F.G., & SCHAEFFER, C.E. Catawba kinship and social organization with a resume of Tutelo kinship terms. 555-75.
BENEDICT, P.K. Thai, Kadai, and Indonesian; a new aligment in Southeastern Asia. 576-601.
JAKOBSON, R. The Paleosiberian languages. 602-20.
WINER, H. Songhoi circumcision. 621-37.
MOON, J.A. A preliminary examination of the death concepts of the Ibo. 638-54.
SIMPSON, G.E. Sexual and familial institutions in northern Haiti. 655-74.
KELLY, W.H. Copopa gentes. 675-91.
FRENCH anthropology and the resistance to German rule. 728.

5. Bacteriology; Parasitology

J. Bact., Balt., 1942, 44: No. 4,

STEINHAUS, E.A. The microbial flora of the Rocky Mountain wood tick, Dermacentor andersoni Stiles. 397-404.
STANIER, R.Y. A note on elasticotaxis in myxobacteria. 405-12.
DUNHAM, W.B., & MAC NEAL, W.J. Culture on the chick chorio-allantois as a test of inactivation of vaccinia virus. 413-24.
REED, R.W. Nitrate, nitrate and indole reactions of gas gangrene anaerobes. 425-31.
ELROD, R.P. The Erwinia-coliform relationship. 433-40.
MRAK, E.M., PHAFF, H.J. ET AL. Yeasts occurring in souring figs. 441-50.
DOUDOROFF, M. Studies on the luminous bacteria; nutritional requirements of some species, with special reference to methionine. 451-9.
DOUDOROFF, M. Studies on the luminous bacteria; some observations on the anaerobic metabolism of facultatively anaerobic species. 461-7.
KOCHOLATY, W. Cultural characteristics of Penicillium notatum in relation to the production of antibacterial substances; indication of the dual nature of the antibacterial substance. 469-77.

BOHONOS, N., HUTCHINGS, B.L., & PETERSON, W.H. Pyridoxine nutrition of lactic acid bacteria. 479-85.
VAUGHN, R.H., & LEVINE, M. Differentiation of the intermediate coli-like bacteria. 487-505.
VERA, H.D. Rapid demonstration of hemolysis due to anaerobes. 507.

J. Econ. Entom., 1942, 35: (Oct.)

FARRAR, M.D., & FLINT, W.P. Control of insects in 14,000 corn bins. 615-9.
FLOYD, E.H., BEDNEL, I.J., & EDDY, C.O. Free nicotine in arsenical and cryolite dust mixtures. 620-3.
BEDNEL, I.J., & FLOYD, E.H. Insecticide tests for cotton aphid and boll weevil control during 1941. 623-6.
EVING, K.P., & MORELAND, R.W. Insecticides to control bollworm, boll weevil, cotton aphid, and cotton flea hopper. 626-9.
EYER, J.R., & MEDLER, J.T. Control of hemipterous cotton insects by the use of dusts. 630-4.
CHAMBERLIN, F.S., & MADDEN, A.H. Control of flea beetles on cigar-wrapper tobacco with cube dust in the Florida-Georgia area. 634-7.
WATHES, R., & INGRAM, J.W. Development and use of sugarcane varieties resistant to the sugarcane borer. 638-42.
SCARAMUZZ, L.C., & INGRAM, J.W. Results attained in the biological control of Diatraea saccharalis (F.) in Florida. 642-5.
MORILL, A.W., JR. Control of the tobacco thrips on shade-grown tobacco in Connecticut. 646-9.
GLASGOW, H. The place of concentrated sprays in the pea aphid control program. 649-53.
DOHART, R.M., & MALLIS, A. The control of pillbugs and sowbugs. 654-8.
LEHMAN, R.S. Laboratory tests of organic fumigants for wireworms. 659-61.
MANIS, H.C., DUGAS, A.L., & FOX, I. Toxicity of paradichlorobenzene to third-instar larvae of the housefly. 662-4.
RICHARDSON, H.H., & CASANGES, A.H. Toxicity of acrylonitrile, chloroacetobitrile, ethylene dichloride and other fumigants to the confused flour beetle. 664-8.
GAHAN, J.B. The compound, 4,6-dinitro-o-cresol as a cockroach poison. 669-73.
JOHNSON, A.C., LIVINGSTONE, E.M., & BULGER, J.W. Methyl bromide fumigation to control oriental fruit moth on dormant nursery stock. 674-7.
GOBEIL, A.R. Diapause and egg intoxication in Diprion polytomum Hartig. 677-79.
WHITE, R.T., & BUTKY, S.R. Cooperative distribution of organisms causing milky disease of Japanese beetle grubs. 679-82.
HENDERSON, C.F., & HOLLOWAY, J.K. Influence of leaf age and feeding injury on the citrus red mite. 683-6.
FLANDERS, S.E. Propagation of black scale on potato sprouts. 687-9.
FLANDERS, S.E. Metaphycus helvolus, an encyrtid parasite of the black scale. 690-8.
COX, J.A. Effect of dormant sprays on parasites of the San Jose and terrapin scales. 698-701.
SCOTT, D.B., JR., & KARR, E.H. The influence of insecticides added to soils on growth and yield of certain plants. 702-8.

SIMMONS, S.W., & DOVE, W.E. Waste celery as a breeding medium for the stablefly or dog fly, with suggestions for control. 709-15.

PYENSON, L. Three curculionid pests of the oiticica nut. 715-8.

LANGE, W.H., JR. Certain plume moths of economic importance in California. 718-24.

FRITZ, R.F., & VICKERS, W.A. Damage to highways by the mound-building prairie ant. 725-7.

TODD, F.E., & VANSELL, H. Pollen grains in nectar and honey. 728-31.

FERRIS, G.F. The needs of systematic entomology. 732-8.

ESSIG, E.O. The significance of taxonomy in the general field of economic entomology. 739-43.

CLAUSEN, C.P. The relation of taxonomy to biological control. 744-8.

FRISON, T.H. The significance of economic entomology in the field of insect taxonomy. 749-52.

MUESBECK, C.F.W. Fundamental taxonomic problems in quarantine and nursery inspection. 753-8.

LINSLEY, E.G. The present status of entomological nomenclature. 758-61.

HOYT, A.S. Status and functions of the section of plant quarantine and inspection. 762-4.

AAMODT, T.L., & RIGGLES, A.G. Recent quarantine adjustments giving increased consideration to biological findings. 765-70.

DRAKE, C.J. What regulatory officials should do to simplify and coordinate the plant quarantine and regulatory structure of the United States. 771-4.

WOODHAMS, G.E. Regulatory pest control in California.775-7.

RYAN, H.J. Why California agricultural commissioners are state plant quarantine officers. 777.

LAING, G.B. California intercounty inspection problems. 778.

ANDERSON, L.D., & WALKER, G.G. Control of flea beetles on potatoes at New Church, Virginia, in 1941. 780.

SIEGLER, E.H., & BOWEN, C.V. Toxicity of certain acid amides and their N-substituted derivatives to codling moth larvae. 781-4.

SIEGLER, E.H., & HALLER, H.L. Toxicity of sulfanilamide and related compounds to the codling moth larvae. 784.

DENNING, J.A. The present status of Parlatoria chinensis Marlatt in St. Louis. 784.

HEADLEE, T.J. A continuation of the studies of the relative effects on insect metabolism of temperature derived from constant and varied sources. 785.

CARLSON, F.W. Refrigeration test of transforming codling moth larvae. 787.

BACH, P., DE. The introduction and recovery of Trissolcus murgantiae Ashm. in California. 787.

HUTZEL, J.M., & PETERSON, A. A killing and preserving fluid for immature insects. 788.

DEONIER, C.C., & LINDQUIST, A.W. Effect of certain larvicides on the overwintering larvae of the Clear Lake gnat. 788.

CHAMBERLIN, F.S., & MADDEN, A.H. Mixing poisoned bait for the tobacco budworm. 789.

BOYCE, A.M., PERSING, C.O., & DARNHART, C.S. The resistance of citrus thrips to tartar emetic-sucrose treatment. 790.

SHANDS, W.A., & BRONSON, T.E. Brassica campestris L. and Raphanus raphanistrum L. as breeding hosts of the green peach aphid. 791.

MC GOVRAN, E.R., & SULLIVAN, W.N. Two activators for pyrethrins in fly sprays. 792.

CARTER, R.H. The nature of "cobalt" once recommended for control of the tobacco hornworm. 792.

GRAHAM, O.H. The median lethal dose of calcium arsenate for the honeybee. 793.

WEIMER, J.L., & BISSELL, T.L. The vetch bruchid in Georgia. 794.

METCALF, C.L. Common names of insects. 795-8.

8. Cancerology

Bull. Am. Soc. Cancer, 1942, 24: No. 9,

EWING, J. Sunlight bathing and sunlight cancer. 2-5.

HILL, C. Britain's war on cancer; attacking disease by surgery and radio-therapy; nation-wide service. 5.

BINKLEY, S. What you should do about cancer. 10.

10. Chemistry; Physics

Analyst, Lond., 1942, 67: (Sept.)

MILTON, R., & DUFFIELD, W.D. Determination of arsenic in soils, foods, organic compounds, etc. 279-83.

LAW, N.H. An improved method for the quantitative determination of tin in foods. 283-7.

STAPLES, A. Discrepancies observed in the colorimetric estimation of silicon in hiduminium RR. series of aluminum alloys. 287.

THEOBALD, L.S. Attack by fusion of pyrites and chromite. 287.

LYNCH, G.R., ALLPORT, N.L. ET AL. Third report of the Poisons Sub-Committee appointed to investigate methods of assay for various substances appearing in the poisons schedules of the Poisons Regulations 1935, to the Analytical Methods Committee of the Society of Public Analysts and Other Analytical Chemists. 289.

J. Biol. Chem., 1942, 146: (Nov.)

SCUDI, J.V., & BUHS, R.P. Determination of the tocopherols and the tocopherylquinones by the colorimetric oxidation-reduction method. 1-6.

BAUMANN, C.A., FIELD, J.B. ET AL. Studies on the hemorrhagic sweet clover disease; induced vitamin C excretion in the rat and its effect on the hypoprothrombinemia caused by 3,3'-methylenebis- (4-hydroxycoumarin) 7-14.

HESS, W.C., & SULLIVAN, M.X. The quantitative determination of ianthionine. 15-8.

JUKES, T.H., & WELCH, A.D. The effect of certain analogues of choline on perosis. 19-24.

STANLEY, W.M., & ANDERSON, T.F. Electron micrographs of protein molecules. 25-30.

FOLCH, J. The nature of the glycerophosphoric acid present in phosphatides. 31-3.

FOLCH, J. Brain cephalin, a mixture of phosphatides; separation from it of phosphatidyl serine, phosphatidyl ethanolamine, and a fraction containing an inositol phosphatide. 35-44.

MAC LACHLAN, P.L. Fat metabolism in the lungs. 45-8.

ROSS, W.F., & WOOD, T.R. The partial purification and some observations on the nature of the parathyroid hormone. 49-58.

WOOD, T.R., & ROSS, W.F. The ketene acetylation of the parathyroid hormone. 59-68.

TARVER, H., & SCHMIDT, C.L.A. Radioactive sulfur studies; synthesis of methionine; conversion of methionine sulfur to taurine sulfur in dogs and rats; distribution of sulfur in the proteins of animals fed sulfur or methionine; experiments in vitro with sulfur and hydrogen sulfide. 69-84.

BADIE, G.S. The inhibition of cholinesterase by physostigmine and prostigmine. 85-93.

SCHACHNER, H., FRIES, A., & CHAIKOFF, I.L. The effect of hexoses and pentoses on the formation in vitro of phospholipid by brain tissue as measured with radioactive phosphorus. 95-103.

WEST, E.S., & RINEHART, R.E. Reaction of ninhydrin with ascorbic acid and other endiol compounds; decarboxylation of dehydroascorbic acid. 105-8.

LANDY, M., & DICKEN, D.M. A microbiological method for the determination of p-aminobenzoic acid. 109-14.

HOAGLAND, C.L., & WARD, S.M. The quantitative determination of factor V by measurement of nitrite produced by Hemophilus influenzae. 115-22.

DEVLIN, H.B., & MATTILL, H.A. The chemical determination of tocopherols in muscle tissue. 123-30.

WEATHERSTONE, R.M., & BERG, C.P. The comparative availabilities of d(+)- and l(-)-histidine for the production of liver glycogen. 131-6.

VAN SLYKE, D.D., HILLER, A., & DILLON, R.T. Solubilities and compositions of the phospho-12-tungstates of the diamino acids and of proline glycine, and tryptophane. 137-57.

SCHOLANDER, P.F. Analyzer for quick estimation of respiratory gases. 159-62.

THEIS, E.R., & JACOBY, T.F. The acid-base-binding capacity of collagen. 163-9.

FLINK, E.B., & WATSON, C.J. A method for the quantitative determination of hemoglobin and related heme pigments in feces, urine, and blood plasma. 171-8.

PETERS, J.H. The determination of creatinine and creatine in blood and urine with the photoelectric colorimeter. 179-86.

SMITH, E.R.B., & SMITH, P.K. Thermodynamic properties of solutions of amino acids and related substances; the ionization of glycylglycine, ε-aminocaproic acid, and aspartic acid in aqueous solution from one to 50 degrees. 187-95.

BEECHER, H.K., FOLLANSBEE, R. ET AL. Determination of the oxygen content of small quantities of body fluids by polarographic analysis. 197-206.

POWELL, R.C., JR., & SHAW, J.C. The non-utilization of lactic acid by the lactating mammary gland. 207-10.

SUMNER, R.J. Lipid oxidase studies; the specificity of the enzyme lipoxidase. 211-3.

SUMNER, R.J. Lipid oxidase studies; the relation between carotene oxidation and the enzymic peroxidation of unsaturated fats. 215-8.

GOULD, B.S., TYTELL, A.A., & JAFFE, H. Biochemistry of fusaria; the influence of diphosphopyridine nucleotide on alcoholic fermentation, in vivo. 219-24.

DARBY, W.J., & LEWIS, H.B. Urocanic acid and the intermediary metabolism of histidine in the rabbit. 225-35.

DAKIN, H.D. On lysine and ornithine. 237-40.

SURE, B., & FORD, Z.W., JR. Vitamin interrelationships; thiamine and riboflavin interrelationships in metabolism. 241-50.

ELLIOTT, K.A.C., SCOTT, D.M., & LIBET, B. Studies on the metabolism of brain suspensions; carbohydrate utilization. 251-69.

SILBER, R.H., & MUSHETT, C.W. pH Change as a measure of growth of Lactobacillus casei in vitamin assays. 271.

WOOLLEY, D.W., & KRAMPITZ, L.O. Reversal by phosphatides of the antimicrobial action of a crystalline protein from wheat. 273.

STRAIN, H.H., & MANNING, W.M. Isomerization of chlorophylls a and b. 275.

LAMPEN, J.O., UNDERKOFLER, L.A., & PETERSON, W.H. p-Aminobenzoic acid, a growth factor for Acetobacter suboxydans. 277.

11. Dentistry; Stomatology

Illinois Dent. J., 1942, 11: (Nov.)

MILLER, M.C. Dental hygienists in the Army. 477-9.

PRIMER on arthritis; prepared by a committee of the American Rheumatism Association. 480-9.

HIGGINS, J.A. Pharmacology in its relation to dentistry. 490.

COMPULSORY dental program id proposed by Canadian Dental Association. 492-4.

NAVY opposes granting of rear admiral ranking to head of Dental corps. 495.

J. Canad. Dent. Ass., 1942, 8: No. 11,

SCHOUR, I., & MASSLER, M. The development of the teeth. 529-33.

BRODIE, A.G. On the growth of the jaws and the eruption of the teeth. 534-46.

DENTAL (The) hygienist. 549-51.

LEROUX, A.G. L'impot du dentiste. 566-70.

BRAULT, J., & FORTIER, A. Un effort necessaire; une campagne en faveur de l'hygiene dentaire et de la profession dentaire dans notre province. 571.

GRANULOMES (Les). 575; passim.

Oral Hyg., Pittsb., 1942, 32: (Nov.)

SCHAEFLE, J.W. And the greatest of these is leadership. 1471-5.

ROSS, D. There is no shortage of dentists. 1476-8.

MC CLAIN, M. A dental wife tells of Pearl Harbor. 1480-2.

WATKINS, R.D. A hospital dental cart, its uses and physical aspects. 1483.

RICHMOND, J.W. Now is the time to plan; carrying the emergency dental setup over into peacetime will endanger the dental profession. 1485-7.

SWANK, E.R. Don't be an average dentist; superior service is demanded of every dentist in this emergency. 1491-3.

Schweiz. Mschr. Zahnh., 1942, 52: (Aug.)

HESS, W. Die Behandlung der dentalen Herdinfektion durch lokale Iontophorese mit Cibazol. 642-55.

MULLER, O. Ueber den Epitheluberzug der Pulpapolypen. 656-9.
SCHWARZ, R. Praktische und angewandte Orthodontie. 659-65.
SPRENG, M. Der Umfang der Prothesenbasis bei ganzlicher Zahnlosigkeit. 665-81.
VEST, G. Ueber Einteilung, Indikation und Planung losbarer Brucken. 681-9.
SURY, K.F. VON. Klinische Erfahrungen mit Irgamid als lokalem Chemotherapeutikum in der Zahnheilkunde. 689-701.
SCHACKE, D. Elfenbeinwurzelfullung. 701.
MAUMARY, A. Reparaturen mit Palapont. 704.
EUGSTROM, J. Einige Richtlinien fur die Planung und Konstruktion der partiellen Plattenprothese. 705.
SCHUPP-WELLER, E. Der Einfluss der B1-Avitaminose auf die Entwicklung des Zahnes. 705.
FENNER. Erfahrungen mit dem antiseptischen Serum Antisepton J. H. Gansimayr 600. 706.
HAUS, O. Antisepton bei Fokalerkrankungen. 706.

13. Diagnosis; Clinical Methods

A-V, Phila., 1942, 50:

W., N.C. Compulsory health insurance. 150.

J. Lab. Clin. M., 1942-43, 28: (Nov.)

CANNON, P.R. Antibody production and the anamnestic reaction. 127-39.
KRAUS, E.J. Sarcoidosis, Boeck-Besnier-Schaumann disease, as cause of a pituitary syndrome. 140-6.
BURSTEIN, J., BROWN, G., & KLEIN, C. Treatment of congestive heart failure in ambulatory patients with an orally administered mercurial diuretic. 147-9.
CASPE, S., & OSLER, A.G. Adenylic acid and bacterial growth. 150.
BRAY, W.E., & MEREDITH, J.M. Fatal Salmonelle intracranial infection in an infant; report of a case. 152-6.
UIHLEIN, A. Effect of injection of tissue extracts on the number of blood platelets. 157-62.
POTH, E.J., CHENOWETH, B.M., JR., & KNOTTS, F.L. A preliminary report on the treatment of bacillary dysentery with succinyl sulfathiazole. 162-7.
MILLER, J.R., & DENT, R.F. A new hypothesis of the production of the T wave in the electrocardiogram based on electrokinetic phenomena. 168-73.
BRIGGS, A.P. The significance of the urinary ammonia. 174-9.
STILES, M.H., STILES, M.T., & KOLB, A.M. Bromsulphalein retention in low-grade chronic illness. 180-7.
CLARK, W.G., STRAKOSCH, E.A., & LEVITAN, N.I. Solubility and pH data of some of the commonly used sulfonamides. 188.
LE WINN, E.B., & ZUGERMAN, I. Fat metabolism in acne vulgaris. 190-2.
LAWLER, H.J. A modification of the Kahn test for use with hemolyzed blood. 193-8.
CRAVER, B.N., & WILLIAMSON, H.L. A simple automatic distilling unit. 199.
WALDMAN, S. A method for rapid, repeated, approximate determinations of the transverse diameter of the heart. 201-3.
ARING, C.D., & FROHRING, W.O. Apparatus and technique for measurement of vibratory threshold and of vibratory adaptation curve. 204-7.
EMERY, F.E. A simple kidney plethysmograph. 208-10.

RIGGS, B.C. An accurate constant temperature water bath constructed at very low cost. 210-3.
BURMAN, D., & WEINTRAUB, R. Levinson test for tuberculous meningitis; presentation of 110 cases and a discussion of the principle and technique of the test. 213-8.
LEIBOFF, S.L. The determination of total cholesterol and cholesterol esters in blood. 219-24.
KAYE, S. Microchemical determination of yellow phosphorus. 225-32.
PONDER, E. A simple method for determining plasma density and plasma protein concentration. 232-4.
PIJPER, A., & POOLE, L.B. A simple technique for time lapse cinemicrography. 235-41.
JOHNSTON, G.F. The miniature camera approach to visual education. 241-9.

14. Dietetics; Foods; Nutrition

J. Am. Diet. Ass., 1942, 18: (Nov.)

SMITH, A.H. Trace elements in nutrition. 721-4.
JOHNSON, D. Vitamin A versus carotene content of low-fat diets in obesity, cholecystitis, and liver disease. 725-7.
KIENE, J. Promoting better nutrition for industrial workers. 728-30.
BEEUWKES, A.M. The dietary treatment of functional hyperinsulinism. 731-3.
NUTRITION (The) situation in Hawaii. 734-7.
DORCUS, R.M. Food gabits; their origin and control. 738-40.
SELLING, L.S. Some psychological aspects of nutrition. 741-4.
HICKEY, M.A. Role of women in the war effort. 745.
MC LACHLAN, H. Dietary management in the treatment of maxillofacial injuries. 746-8.
NUTRITION and mental health. 748-52.
NUTRITIONAL aspects of feeding the Army and Navy. 752-6.
NUTRITION for housewives. 756-8.
FOOD conservation and thrift. 758-60.
STRENGTH is in the land. 760.

J. Nutrit., 1942, 24: (Nov.)

SURE, B., & FORD, Z.W., JR. The influence of thiamine, riboflavin, pyridoxine, and pantothenic acid deficiencies on nitrogen metabolism. 405-26.
LIGHT, R.F., CRACAS, L.J. ET AL. Inhibition of the symbiotic synthesis of B complex factors by sulfonamides. 427-35.
HAWKS, J.E., BRAY, M.M. ET AL. Potassium, sodium and chloride balances of preschool children receiving medium and high protein diets. 437-48.
POTTER, R.L., AXELROD, A.E., & ELVEHJEM, C.A. The riboflavin requirement of the dog. 449-60.
KIBLER, H.H., & BRODY, S. Metabolism and growth rate of rats. 461-8.
VORIS, L., KRISS, M. ET AL. Effects of prolonged daily treatment of normal rats with saline anterior pituitary extract; sexual differences in appetite, growth and organ weights. 469-79.
VORIS, L., KRISS, M. ET AL. Effects of prolonged daily treatment of normal rats with saline anterior pituitary extract; protein and energy metabolism. 481-94.
FREE, A.H., & LEONARDS, J.R. The effect of vitamin B deficiency on the intestinal absorption of galactose in the rat. 495-502.

15. Digestive System

Gastroenterologia, Basel, 1942, 67:

VERDAN, C. Ulceres gastro-duodenaux et medecine des accidents. 1-39.
